

PennEast Pipeline Updates:

02-03-17: Notice of Revised Schedule for Environmental Review of the PennEast Pipeline Project. Click [here](#) to read more.

12-28-16: Letter from PA DEP regarding Incompleteness Review #2 for Lehigh, Moore, East Allen, Upper Nazareth, Lower Nazareth, Bethlehem, Easton City, Lower Saucon, and Williams Townships. Click [here](#) to read more.

12-28-16: Letter from PA DEP regarding Incompleteness Review #3 for Luzerne, Carbon, Northampton and Bucks County. Click [here](#) to read more.

12-22-16: Letter to Sarah Binckley at AECOM and Anthony Cox at PennEast Pipeline Company regarding the Stormwater Management Analysis for the PennEast Pipeline Project. Click [here](#) to read more.

12-06-16: Letter from Charles Elliott dated December 5, 2016, regarding comments from LST on PennEast response to post-DEIS environmental information request. Click [here](#) to read more.

11-23-16: November 2016 Update on Pipeline Route. Click [here](#) to read more.

11-9-16: Letter dated November 9, 2016 from AECOM regarding the stormwater management analysis for the PennEast Pipeline Project. Click [here](#) to read more.

09-27-16: Notice of revised schedule for environmental review of the PennEast Pipeline Project. Click [here](#) to see more.

09-27-16: Email from Lauren Brown regarding the PennEast Route update for September. Click [here](#) to see more.

09-22-16: Comments from PA DEP dated September 19, 2016 on PennEast Pipeline Project Incompleteness Review No. 2. Click [here](#) to view the comments.

09-13-16: PennEast Pipeline Project - Lower Saucon Township comments on the Draft Environmental Impact Statement for the PennEast Pipeline. Click [here](#) to view comments submitted to FERC.

09-07-16: DEP will be taking additional comments for the PennEast Pipeline until September 26, 2016. Click [here](#) to share your comments

via the FERC e-comment process.

07-27-16: Feds set six public meetings on the pipeline report so the public can comment on the PennEast project's impact. There will be a meeting in Bethlehem on August 15, 2016 at Best Western Lehigh Valley Conference Center at 300 Gateway Drive from 6:00 p.m. to 10:00 p.m. to collect verbal comments on the draft document. No presentation will be given by FERC. Verbal comments will be recorded by stenographers in one-on-one settings and transcriptions will be placed into the docket for the project. Click [here](#) to share your comments via the FERC e-comment process or click [here](#) to go to the PennEast pipeline website. Click [here](#) to read the newspaper article.

07-26-16: PennEast Pipeline Project - Draft Environmental Impact Statement. Click [here](#) to go to the FERC website to view the draft impact statement.

06-14-16: Letter from Attorney Charles Elliott dated June 10, 2016 regarding the Federal Clean Water Act for the PennEast Pipeline project. Click [here](#) to read more.

06-03-16: Please read the May 2016 PennEast Pipeline Update newsletter. Click [here](#) to read more.

05-12-16: Please read the letter written by Manager, Leslie Huhn, to Kimberly Bose at FERC regarding the Incompleteness Review Letters from different townships. Click [here](#) to read more.

05-04-16: Please read the letter from PA DEP regarding the Incompleteness Review on the PennEast Pipeline Project. Click [here](#) to see more.

03-30-16: Please read the update for landowners on the pipeline route. Click [here](#) to see more.

03-14-16: Please read the email from PennEast Pipeline regarding Cathodic Testing and the Township's response to their email. Click [here](#) to read the email.

03-08-16: The Township requested PennEast to deliver a presentation at a Township Council meeting on the proposed pipeline. PennEast said they are unavailable to participate in the Township's meeting. Please click [here](#) to read the letter.

02-25-15: The DEP presented the final report of the Pipeline Infrastructure Task Force to Governor Wolf, which identified a dozen top

recommendations, along with a broader set of 184 suggestions, to help PA achieve responsible development of natural gas pipeline infrastructure in the Commonwealth. Click [here](#) to see more.

02-18-16: Response letters to AECOM regarding the PennEast Pipeline project. Please click [here](#) to read the letter regarding the request for land use. Click [here](#) to read the letter regarding the municipal stormwater management consistency review and click [here](#) to read the letter regarding the project municipal notification.

02-10-16: Here is the latest proposed alignment for the PennEast pipeline. Please click [here](#) to see the map.

02-08-16: PennEast Pipeline Municipal Notification. Please click [here](#) to read more.

02-08-16: PennEast Request for Land Use Response. Please click [here](#) to read more.

02-08-16: PennEast Pipeline Municipal Stormwater Management Consistency Review. Please click [here](#) to read more.

12-22-15: PennEast Pipeline has a route update as of December 2015. Please click [here](#) to see the letter.

11-09-15: Regarding the PennEast Pipeline, the motion to FERC to intervene has been accepted for filing. Please click [here](#) to read more.

10-19-15: PennEast Pipeline Project Certificate Application Filing Notice with FERC to construct, install, own, operate and maintain approximately 118-miles of the pipeline. Please click [here](#) to read more.

10-15-15: On October 15 and October 19, hear from impacted landowners and come and learn more about how the PennEast Pipeline could impact you. Please click [here](#) to see the flyer. Read the article on coalitions launching a campaign to educate and unite the PA Communities impacted by the PennEast Pipeline. Please click [here](#) to read the article.

10-12-15: PennEast Pipeline provided an updated map for the entire route on September 30, 2015 and indicated that the overall alignment of the route has been adjusted within the 400 foot survey corridor to avoid and/or minimize impacts to wetlands and water bodies, cultural resources, agricultural lands and other sensitive habitats. In addition, they indicated that there have also been adjustments to the project route due to the finalization of valve locations. To view this map, please

10-01-15: PennEast Pipeline project update for September 2015. Please click [here](#) to read more. Click [here](#) to see the updated maps.

09-03-15: PennEast Pipeline project update for August 2015. Please click [here](#) to read more.

08-20-15: PennEast Pipeline route change through Lower Saucon Township July 2015. Please click [here](#) to read more.

08-20-15: Memo from Charles Elliott, regarding a brief update on the PennEast Pipeline project activities over the last sixty days. Please click [here](#) to read more.

08-13-15: Letter sent from Lower Saucon Township to FERC regarding the impact of the proposed PennEast Pipeline route on Bethlehem Authority Water Supply in Carbon County, PA. Please click [here](#) to read more.

08-12-2015: A coalition of concerned citizens against the pipeline and numerous other non-profit organizations are presenting "Stop PennEast Pipeline" march across the river. Click [here](#) for more information.

07-24-15: PennEast Pipeline Project Updated Route. Please click [here](#) to read more. Click [here](#) for the latest information on the PennEast Pipeline project.

06-25-15: There will be surveyors from Hatch Mott McDonald in the area of I-78 and Easton Road on Saturday, June 27, 2015 surveying the corridor along the highway and road only for the PennEast Pipeline project.

06-24-15: Supplemental comments to FERC from Lower Saucon Township regarding deficiencies and errors in PennEast Pipeline's response to scoping comments. Please click [here](#) to read more.

06-23-15: The latest PennEast Pipeline Project update from PennEast officials. Please click [here](#) to read more.

06-09-15: At the request of the Lower Saucon Township Council, Solicitor Charles Elliott was directed to send a letter to the Federal Energy Regulatory Commission. Please click [here](#) to read the letter.

06-01-15: Penn State Extension will be holding a workshop on June 10, 2015 "Making Sense of Natural Gas Pipelines and Right-of-Way

Agreements". Please click [here](#) to read more.

04-21-15: Lower Saucon Township's submission to the U.S. Inspector General regarding selection of Tetra-Tech as 3rd party general contractor. Please click [here](#) to read more.

04-01-15: PennEast engineers have revised and refined portions of the proposed route based on additional feedback from numerous stakeholders. Please click [here](#) to read more.

03-17-15: PennEast has filed a response to FERC regarding the scoping comments. Click [here](#) to view the document.

02-27-15: REMINDER - Today, Friday, February 27, 2015, is the deadline to file your comments to FERC.

02-26-15: The scoping comments on the PennEast Pipeline project have been filed. Please click [here](#) to see the scoping comments and click [here](#) to see the appendices to the comments.

02-18-15: Residents can submit comments and documents to FERC at www.ferc.gov through their [eComment](#) or their [eFiling](#).

01-22-15: Lower Saucon Township Council approved Resolution No. 32-2015 at their January 21, 2015 Council meeting opposing the construction of the proposed PennEast Pipeline through Lower Saucon Township. Please click [here](#) to read the resolution

01-16-15: PennEast Pipeline continues to evaluate route options throughout FERC's review process. The interactive mapping tool was updated and reflects the survey corridor associated with the current preferred alternative route. Please click [here](#) to read the article and see the link to direct you to the revised interactive mapping tool.

12-03-14: Please click [here](#) to see PennEast Pipeline's revised pipeline map showing the Hellertown 12-02-14:
Please click [here](#) to see PennEast Pipeline's project overview of their project.

11-26-14: PennEast Pipeline provided various maps for Lower Saucon Township regarding the proposed pipeline. Click [here](#) to see the map of the Township showing the new route on the east side of SR33 and Lehigh River crossing. Click [here](#) to see the map of the Township with environmental features overlaid. Click [here](#) to see the map of the area showing any geological faults.

11-05-14: PennEast Pipeline Company has developed an interactive mapping tool to assist landowners, neighbors and community leaders. Click [here](#) to read the letter from Alisa Harris from PennEast Pipeline Company.

10-24-14: PennEast Pipeline Company invites you to their open houses to provide you with accurate information on the proposed pipeline. Click [here](#) to find out the date and where the open houses will take place.

10-17-14: Information on PennEast Pipeline Project pertaining to Lower Saucon Township. There are four sections to their PowerPoint document. Click on each section. [Section 1](#); [Section 2](#); [Section 3](#); [Section 4](#).

10-13-14: On October 10th, PennEast provided the attached map of the proposed route through Lower Saucon Township. Click [here](#) to view the map.

10-10-14: Here are frequently asked questions about the PennEast Pipeline Project. Click [here](#) to view the FAQ's.

10-09-14: Included in the Federal Energy Regulatory Commission (FERC) filing were more specific maps showing the proposed route. Click [here](#) to view USGS Topographic Quadrangle Map of Lower Saucon Township.

10-09-14: The following message was received from the PennEast Pipe project representatives on October 8, 2014:

Dear Community Leader,

On October 7, 2014, PennEast Pipeline Company, LLC, submitted its formal request to initiate pre-filing review by the Federal Energy Regulatory Commission (FERC). The application is the first step in requesting FERC certificate approval for the proposed pipeline. PennEast Pipeline is not required to use the comprehensive, multi-step FERC pre-filing review process; however, PennEast chose to request pre-filing in order to work cooperatively with the FERC staff on the technical engineering and environmental aspects of the project before a formal application is submitted.

The pre-filing process creates the framework for the environmental analysis required of the location, design and permitting for construction of the proposed natural gas pipeline. Pre-filing also includes a formal structure for stakeholders along the proposed route to provide input and opinions regarding the proposed PennEast Pipeline.

If approved for the pre-filing process, FERC will assign the PennEast Pipeline Project a docket number (Note: FERC Docket Number: Click [here](#) and then click on "File List" to view documents submitted with filing) and PennEast will share the docket number through its website and news release. Once a docket number is assigned, FERC will accept public comment regarding the proposal. PennEast anticipates beginning the process of submitting project documents to FERC by the end of October and plans to complete pre-filing and file a formal application in spring 2015.
